

## RECOMMENDED READING LIST

### Professional Diploma in Domestic Retrofit Coordination and Risk Management

There is no requirement to read outside of the courses in order to gain your Retrofit Coordinator Diploma. All examination questions will relate back to what is covered in the courses. However our tutors have recommended the following texts should candidates wish to gain a deeper understanding of the subject matter.

#### General Texts

An Introduction to Low Carbon Domestic Refurbishment (Second Edition) (2014), Construction Products Association, London, [www.constructionproducts.org.uk/sustainability/buildings/domestic-refurbishment/a-guide-to-low-carbon-domestic-refurbishment/](http://www.constructionproducts.org.uk/sustainability/buildings/domestic-refurbishment/a-guide-to-low-carbon-domestic-refurbishment/)

Low Carbon Domestic Retrofit – Building Opportunities for Business (2011), Institute for Sustainability, [www.instituteforsustainability.co.uk/retrofitguides.html](http://www.instituteforsustainability.co.uk/retrofitguides.html)

Retrofit Revealed (2013), Technology Strategy Board and Retrofit for the Future – a Guide to Making Retrofit Work (2014), <https://retrofit.innovateuk.org/>

Residential Retrofit – Twenty Case Studies, Marion Baeli, RIBA Publishing, London (2013)

Bristol City Council (2015) A Bristolian's Guide to Solid Wall Insulation, Bristol, Bristol City Council (with STBA, DECC and Warm Up Bristol), available online at <https://warmupbristol.co.uk/sites/default/files/Final%20-%20A%20Bristolian's%20Guide%20SME522....>

National Standards Authority of Ireland (2014) Code of practice for the energy efficient retrofit of dwellings Standards Recommendation 54:2014, Dublin, NSAI, available online at <https://www.nsai.ie/Our-Services-%281%29/Agreement/SR-54-Launch/SR-54-workshop-RB.aspx>.

#### Building Fabric Retrofit

Trigger Points – A Convenient Truth: Promoting Energy Efficiency in the Home, Energy Saving Trust, London (2011)

#### Traditional Buildings

The Sustainable Traditional Buildings Association (STBA) Guidance Wheel is available at <https://responsible-retrofit.org/wheel/>

The STBA has produced a series of How To guidance documents which are available at [www.stba.org.uk](http://www.stba.org.uk). Also available here is the STBA's seminal Responsible Retrofit Report published in 2012.
